

REGISTRATION POLICY: POSTGRADUATE

REGISTRATION, WITHDRAWAL, REPEAT, AND AUDIT

Registration

1. Postgraduate students are normally registered for courses by their Programme Convenor/Director at the start of each semester.
2. Registration for elective courses is agreed between the student and the Programme Convenor/Director.
3. Course substitutions and exemptions are not normally permitted at the postgraduate level.

Withdrawing from a Course

4. Postgraduates may withdraw from a course by sending Registry Services a completed course withdrawal form, signed by their Programme Convenor/Director. This can be done after Week 1 and until the last day to withdraw, subject to compliance with relevant immigration and/or scholarship requirements.
5. Postgraduates who withdraw from a course may not be able to repeat it until the following academic year, and the university does not guarantee that optional/elective courses will be repeated.
6. Postgraduates enrolled in an Internship are not normally permitted to officially withdraw. A student who terminates their Internship without good cause before the end of the placement, will receive a failing grade.
7. Students cannot withdraw from courses in which they have received a failing grade because of academic misconduct. They may replace the failing grade in the GPA calculation by repeating the course.

Repeating a Course

8. Any repeats of courses in the taught elements of postgraduate programmes are subject to availability (course scheduling, course cycling, and options offered).
9. Any postgraduate student who has received a grade lower than C (2.0) on a course, may repeat it in any subsequent semester (subject to availability and within the "time to completion" requirement (see Repeating a Course Policy). The failing grade will remain on the student's official academic transcript even if the course is subsequently repeated and passed. If the course is repeated and passed, the subsequent passing grade will be recorded on the transcript and only this new grade will be used in calculating the cumulative GPA.

10. If a student repeats a course previously failed, but the student withdraws from the repeat, the grade assigned will not replace the original failing grade. The failing grade will continue to be calculated in the student's GPA.
11. Repeating a course may have implications for scholarship support, including US financial aid. Students petitioning to repeat a course who are receiving a scholarship or financial aid should seek advice from the Finance Office.
12. A failed course may not be repeated more than twice.

Auditing a Course

13. Postgraduate students are not normally permitted to audit other Level 7 classes, but may seek permission to audit undergraduate classes from the Postgraduate Convenor/Director, if, for instance, they require more background in a given area.
