

COURSE SPECIFICATION DOCUMENT

Academic School / Department: Richmond Business School

Programme: Accounting and Finance

FHEQ Level: 6

Course Title: Audit and Assurance

Course Code: ACC 6103

Total Hours: 160

Timetabled Hours: 45

Guided Learning Hours: 15

Independent Learning Hours: 100

Credits: 16 UK CATS credits
8 ECTS credits
4 US credits

Course Description:

The course focuses on the concepts and techniques relating to the provision of audits under the various Companies Acts, and investigates the legal and ethical framework surrounding auditing. Students will become familiar with concepts and practices relating to the auditing profession and legal liability. Current issues with regard to auditing will be discussed throughout the course.

Prerequisites:

FNN 5200 Corporate Finance

Aims and Objectives:

To provide students with an understanding of the internal and external audit review and reporting functions in the context of the regulatory frameworks and professional and ethical dimensions of audit practice. To enable students to critically appraise and evaluate the audit process and select appropriate techniques and judgments in performing and reporting on audit and assurance services. To equip students with advanced skills in forming judgments and opinions whilst exercising an appropriate degree of critical evaluation in audit and assurance engagements.

Programme Outcomes:

ACCFIN: A1, A2, A5 B1, B2, C1, C2 D1, D3

A detailed list of the programme outcomes is found in the Programme Specification. This is maintained by Registry and found at:

<https://www.richmond.ac.uk/programme-and-course-specifications/>

Learning Outcomes:

By the end of this course, successful students should be able to:

Knowledge and Understanding

- Understand and discuss the roles of the internal and external auditor and the requirements of the regulatory framework which governs the audits of financial statements
- Demonstrate an in-depth understanding of the concepts which underpin auditing and assurance services, including detecting and reporting fraud, auditor competence, the sufficiency and appropriateness of audit evidence, materiality and audit risk
- Understand the impact on the auditor's assessment of risk and the subsequent audit procedures in the context of auditing in a computer based control environment
- Demonstrate an awareness and understanding of current debates in auditing

Cognitive Skills

- Demonstrate written and oral communication skills
- Demonstrate problem solving skills
- Demonstrate group working (i.e. teamwork) skills
