Course Description:

The senior project in Finance forms the culmination of a student's studies in the areas of finance and investment. The project requires a significant level of enquiry and research. It will typically investigate a hypothesis, an issue or case on a relevant topic. The investigation will make use of quantitative and/or qualitative research methods as appropriate to the particular topic. Students will be guided by their supervisor and conduct individual research work on an agreed topic. The supervisor will facilitate the process through regularly-scheduled meetings.

This course is only open to seniors, ideally final semester students should take this course.

Prerequisites:

MGT 5200

Aims and Objectives:

The Course provides students with the opportunity to work independently to develop their ability to make critical judgements. This will provide an opportunity to apply and develop tools and techniques acquired during the course of their major in pursuit of answering a research question, which may be either theoretical, practical or some degree of both.

Programme Outcomes:

Finance and Investment: A1-5, B1-5, C1-2, D1-5

A detailed list of the programme outcomes is found in the Programme Specification. This is maintained by Registry and located at: <https://www.richmond.ac.uk/programme-and-course-specifications/>
