Semester:	Fall, Spring
Credits:	50 UK CATS credits 25 ECTS credits 10 US credits

Course Description:

This graduate capstone project is the culmination of your Digital Marketing and market research, and data analytics studies.

It will provide you with the opportunity to design, conduct, and report on a major independent research project and provide business solutions that are ethical, sustainable and data-driven.

This independent project is student initiated and lead.

You will be able to choose a topic that is of interest to you and that is relevant to the field of digital marketing. It will collect and analyse real world data and provide business decisions based on data.

You will also have the opportunity to work with a supervisor who will provide you with guidance and support throughout the research process.

Your project will demonstrate knowledge and application of theories and concepts you have learned related to digital marketing. It will also be practical and pragmatic and produce realistic business outcomes.

The total course assessment will be the equivalent of 12,000 words comprising a market research report and other elements.

Prerequisites:

The successful completion of all taught courses.

Aims and Objectives:

The capstone project aims to develop a research proposal that is well-defined, feasible, and ethical and sustainable.

Collect and analyse data using appropriate research methods.

Interpret and communicate your research findings in a clear and concise manner.

Reflect on your research process and learning experiences.

Programme Outcomes:

A1, A2, A3, A4, A5

B1, B2, B3 B4, B5

C1, C2, C3,

D1, D2, D3, D4
