

GRADE POINT AVERAGE POLICY: UNDERGRADUATE

General Principles

GPA

1. Grade Point Average (GPA) is a system used to translate letter grades into a numerical format and provide an average grade for students as a precise indication of performance.
2. To calculate a GPA, the numerical equivalent for the grade of each course is multiplied by the number of credits assigned to the course, to determine a number of quality points for that course. The GPA is then the sum of the quality points for a set of courses, divided by the total number of credits of all courses attempted.
3. Transfer credit is not included in the calculation of GPA.
4. The termly grade point average is calculated each semester and summer session and recorded on the student's transcript.

CGPA

5. A Cumulative GPA (CGPA), including all courses taken at the University, is also calculated. The numerical equivalent for the grade of each course is multiplied by the number of credits for the course to give the number of quality points for that course.

MGPA

6. The Major GPA (MGPA) is the GPA for all major requirements, as listed in the relevant programme specification. For the US award, it is used to determine a student's eligibility for graduation and for US graduation honors (see Exit Awards Policy).
7. Undergraduates must obtain a minimum cumulative GPA of 2.000 and a major of 2.000 in order to graduate.
8. Where there is a choice of courses that satisfy the major, the courses with higher grades will be used in calculating the Major GPA.

UK GPA

9. A UK GPA calculation is made based on the upper-division (FHEQ Levels 5 and 6) courses recommended by the University's Formal School Exam Boards and confirmed at the University Exam Board.

10. The UK GPA is presented to the University Exam Board to determine the equivalence for the student's UK degree classification.
11. For the UK and US degree programmes, the UK GPA is weighted, with the Level 5 results representing 33.33% of this final calculation, and the Level 6 results representing 66.67%.
12. A separate cumulative GPA is calculated for any student that completes a Bachelor's degree and subsequently enrolls in a Master's degree at the University.

VERSION MANAGEMENT

Responsible Department: Registry Services			
Approving body: Academic Board			
Version no.	Key Changes	Date of approval	Date of effect
001		24 July 2018	28 August 2018
002	Added GPA requirements re: graduation	August 2020	
003	Removed top-up reference	August 2022	Sept 2022
004	Grammatical correction for clarity	July 2026	01 Sept 2026
		Restricted access? <i>Tick as appropriate</i> ☐ Yes ☒ No
