Course Description:

The course will provide insights into new marketing concepts, tools, technologies and business models to enhance the value creation process. New technologies have created some radical changes in the way companies reach their markets and in particular the emerging phenomenon of social media.

The course will provide an understanding of theoretical perspectives, techniques and tools to understand and harness the opportunities provided by best practice digital marketing

Students will have the opportunity to learn about electronic commerce in action; the interplay between the technology and marketing applications; the changing scope and uses of the Internet, along with current management issues facing businesses attempting to use the World Wide Web.

Prerequisites: MKT 7100 Global Marketing Strategy (to be taken as co-requisite)

Aims and Objectives:

In the current global climate it is imperative that marketers keep pace with the changes of the digital age. This course introduces students to digital marketing technologies, social media and their applications to boost competitive advantage. It presents theoretical frameworks and models which are relevant to digital marketing and associated social media practice. It examines the development of supporting technologies for digital marketing and examines digital channels and their suitability for inclusion for effective integrated online and off line marketing programmes and campaigns.
