Course Description:

This research intensive course for the major is the first part of a two semester sequence taken in the Senior year. Working with faculty in their specific discipline, students produce a research proposal, a literature review and a substantial draft in the first semester. In the second semester (AVC 6297 Senior Seminar 2) students revise their draft and extend their work to produce the 8,000-10,000 word dissertation. Students are guided through the various stages of proposal and dissertation writing, and draft work is supervised regularly in a process of continuous feedback.

Prerequisites: AVC 5215

Aims and Objectives: The course aims to help students develop research strategies focusing upon the development of critical thinking and reading skills, the identification of a viable research project, the generation of a literature review, the clear articulation of a thesis/argument, and the selection of appropriate theoretical

and methodological frameworks.
