

COURSE SPECIFICATION DOCUMENT

Academic School / Department:	Richmond Business School
Programme:	Master of Business Administration
FHEQ Level:	7
Course Title:	Extended Professional HRM Project
Course Code:	HRM 7555
Course Leader:	Carola Hieker
Student Engagement Hours:	400
Lectures:	
Seminar / Tutorials:	18
Independent / Guided Learning:	382
Semester:	Summer
Credit	50 UK CATS credits 25 ECTS credits 10 US credits

Course Description:

This course will provide students with the opportunity of constructing an applied research project in the area of business and management. Students will initiate, plan and execute an individually constructed project. The topic is related to human resource management and is investigated with the use of appropriate research methods. Emphasis is placed on appropriate literature search, and collection and analysis of data. The course will lead to the preparation of a 15,000 word project report.

Prerequisites:

MGT 7155 plus all programme core courses and one HRM elective of choice.

Aims and Objectives:

- To compose a 15,000 word professional project with the guidance of a faculty supervisor
- To develop skills and experience which can be applied in the professional work environment

Programme Outcomes:

A1, A2, A3, A4, A5

B1, B2, B3, B4

C1, C2, C3, C4

D1, D2, D3, D4

A detailed list of the programme outcomes is found in the Programme Specification. This is maintained by Registry and located at: <https://www.richmond.ac.uk/programme-and-course-specifications/>

Learning Outcomes:

By the end of this course, successful students should be able to:

Knowledge and Understanding (A)

- Demonstrate a high level of theoretical and applied knowledge of business research
- Critically discuss, select and justify the project approach and chosen research methods in relation to a relevant business issue
- Apply the steps required to create a literature review
- Apply appropriate research designs for quantitative and qualitative research

Cognitive Skills (B)

- Evaluate independently critical approaches and techniques relevant to business
- Evaluate outcomes and accurately assess/report on own/others work with justification and relate them to existing knowledge structures and methodologies
- Critically evaluate the implications for the recommendations presented
- Critically reflect on the development of knowledge, skills and techniques used during the preparation of the report.

Subject specific, practical and professional skills (C)

- Develop and utilise theory and methodology appropriate to inquiry of an empirical subject area related to business
- Gather, organise and effectively communicate complex and abstract ideas and diverse information

General/transferable skills (D)

- Demonstrate skills in the following areas: research organisation and planning, data manipulation and reporting, critical reasoning, reporting and writing
- Evaluate ethical dilemmas likely to arise in research and professional practice and formulate solutions in dialogue with peers, clients, and others
- Demonstrate initiative in organising and pursuing a supervised project, while accepting full accountability for outcomes

Indicative Content:

This course will provide students with the opportunity of constructing an applied project in the area of business and management. Students will initiate, plan and execute an individually constructed project with a strong emphasis on applied business scenarios/challenges. The course will lead to the preparation of a 15,000 word project report.

Assessment:

This course conforms to the Richmond University Standard Assessment Norms approved at Academic Board.

Teaching Methodology:

The course will require independent research overseen by the supervisor, tutorial opportunities including with specialist faculty for more specific academic guidance, including comments on draft materials, and faculty and peer review feedback.
