Credits:	12 UK CATS credits 6 ECTS credits 3 US credits

Course Description

This course combines elements of different disciplines ranging from industrial relations, social psychology, personnel management, motivation, recruitment and selection, leadership, communication, manpower planning, aspects of training and development and related processes. It is appropriate for students seeking to follow a career in Human Resource Management or in other areas of functional management.

Prerequisites: MGT 5400

Aims and Objectives:

The objective of the course is to provide the student with a basic understanding of the role and function of Human Resource Management within the organization and the contribution it makes to effective performance both at the micro and macro level. The focus will be placed on understanding practical HR functions and their relevance for HR strategy for effective corporate performance through ensuring the effective performance of people within the organization.

Successful completion of the course will provide the student with the ability to perform a basic HR Planning, job analysis, design a recruitment procedure and understand the contribution of

training and development for effective individual performance. The importance of understanding Employment Law will be emphasized throughout the course. Developing HR strategy and skilled personnel for organizations to be able to meet the challenges of a global economic environment will form a key element of the course.

Programme Outcomes

A1, A3, A4, A5

B1, B2, B3, B4

C1, C2

D1, D4, D5

A detailed list of the programme outcomes is found in the Programme Specification. This is maintained by Registry and located at:

<https://www.richmond.ac.uk/programme-and-course-specifications/>
