### **Course Description:**

This course is designed to examine both the theory and practice of financial regulation, as well as the nature and role of compliance. The regulatory framework for the financial system is investigated, from both a theoretical perspective and empirically. This includes examining the roles of the regulatory bodies, primarily in the UK and USA, but with some consideration of other countries. Some consideration is given to potential future changes in regulation.

### **Prerequisites:**

ECN 4110 or FNN 5200

### **Aims and Objectives:**

- Explain the underlying theory of financial regulation from both a microeconomic and macroeconomic perspective.

- Critically analyze and evaluate existing financial regulation.
- Understand the crucial role played by compliance, its impact on financial institutions and markets, and the macroeconomy
- Analyse current and past regulatory methods, and the role they have played in fulfilling the objectives of regulation.

### **Programme Outcomes:**

BSc Finance and Investment: A1, B1, B2, B5, C1, C2, D1, D4, D5

A detailed list of the programme outcomes is found in the Programme Specification. This is maintained by Registry and located at:
