Course Title	Consumer Behaviour
Course Code:	MKT 5205
Student Engagement Hours:	120
Lectures:	30
Seminar / Tutorials:	15
Independent / Guided Learning:	75
Semester:	Fall/Spring/Summer
Credits:	12 UK CATS credits 6 ECTS credits 3 US credits

Course Description:

The course will focus on the study of consumers and their behavioural patterns in the consumption and purchase of product/services as well as the impact of information technology (social media, digital media) on consumer behaviour. It examines behavioural and cognitive psychology and their application in order to measure and interpreting consumers' formation of attitudes and beliefs. The course provides a psychoanalytic perspective in order to inform the development of marketing strategy as well as to what motivates individual to purchase a specific branded products. It provides an in depth understanding of the consumption culture in modern and postmodern life and how marketers develop life style branding strategies to attract different group of consumers market segments.

Prerequisite: MKT 5200

Aims and Objectives:

The primary objective is to help students to analyse the cultural, social, personal, and psychological factors that affect and influence consumer behaviour. Students will come to understand the importance of cognitive psychology, psychoanalysis of consumers, external influences (such as culture) and consumer research and discover how to apply such knowledge in the development of marketing strategies. To provide an understanding of the many complex factors that influences the consumer purchasing behaviour consciously and unconsciously.
