Seminar/Tutorials:	15
Independent/Guided Learning:	100
Supervision:	15
<b>Credits</b>	16 UK CATS credits 8 ECTS credits 4 US credits

### **Course Description**

This course is designed to enable students to build upon the knowledge gained in the prerequisite courses to be able to analyse in-depth the specific services offered by a wealth management company or division of a bank. They will learn the various methods and techniques necessary for the complex financial planning required by clients of significant net worth.

### **Prerequisites:**

FNN 5205 Principles of Investment

### **Aims and Objectives**

- Explain the underlying theory and practice of wealth management, including relationship management
- Critically analyze and evaluate the role played by wealth management within the financial system
- Apply the tools of financial asset allocation (portfolio theory, fundamental and technical analysis) to constructing a wealth management portfolio
- Devise a bespoke portfolio based on a client profile.

## **Programme Outcomes**

Finance and Investment: A2, B1, B2, D1, D2, D4, D5

Accounting and Finance: A1, A4, B1, B2, C1, D1, D3

A detailed list of the programme outcomes is found in the Programme Specification. This is maintained by Registry and located at:

<https://www.richmond.ac.uk/programme-and-course-specifications/>

## **Learning Outcomes**

By the end of this course, successful students should be able to:

- Understand the underlying rationale for wealth management, including relationship management
- Demonstrate a knowledge and understanding of the services of wealth management: brokerage, financial and tax planning, and international and private banking
- Apply the tools of financial analysis to risk management and portfolio construction
- Design and critically assess a bespoke portfolio with reference to market indices and empirical evidence

## **Indicative Content**

- Client identification and analysis
- Needs analysis and relationship management
- Wealth management products and services
- Portfolio and risk management: strategies, risk analysis and portfolio theory
- The regulatory environment
- Tax and taxation planning
- Contemporary issues in wealth management

## **Assessment**

This course conforms to the University Assessment Norms approved at Academic Board and located at: <https://www.richmond.ac.uk/university-policies/>

## **Teaching Methodology**

This upper-level course will be taught using formal class room lectures and seminars/discussions. Full use and application of material from the prerequisites is crucial for student success. Full use of IT, especially Excel™ is key to successful completion of the course. Students are expected to possess a decent financial calculator for in-class calculations.
