FHEQ Level: 6

Course Title: Financial Management

Course Code: FNN 6106

Student Engagement Hours:160Lectures:30Seminar / Tutorials:15Independent / Guided Learning:100Supervision15

Credits: 16 UK CATS credits

8 ECTS credits
4 US credits

Course Description:

The course aims to develop the knowledge and skills expected of a finance manager concerning financing, dividend policy and investment decisions. The Financial Management course aims to equip students with the skills expected from a finance manager responsible for the finance department of a business organisation.

Prerequisites:

ACC 5200 Advanced Managerial Accounting or FNN 5200 Corporate Finance

Aims and Objectives:

The course introduces the role and purpose of financial management within a business organisation. The Financial Management course highlights the importance of the three fundamental financial management decisions: financing, dividend policy and investment. It explores the economic environment within which these financial management decisions are made.

The course covers working capital management and the appraisal of long-term investments in detail.

The course examines the various sources of funding options for business organisations. Funding decisions include internal as well as external funding sources. The course considers the cost of capital on the type of capital selected for a business organisation. The principles underlying the valuation of a business and financial assets are also covered. The course then examines risk and the main techniques employed in managing such risk.

Programme Outcomes:

Accounting and Finance: A1, A2, A3, A4, A5, B1, B2, C1, C2, D1, D2
Business Management (International Business; Data Analytics): A1, A2, A3, A4, B1, B2, C1, C2, D2,

A detailed list of the programme outcomes are found in the Programme Specification. This is located at the archive maintained by the Registry and found at: https://www.richmond.ac.uk/programme-and-course-specifications/
