### **Course Description:**

The senior project forms the culmination of a student's studies in their major. The project requires a significant level of enquiry and research. It will typically investigate a hypothesis, an issue or case on a relevant topic. The investigation ought to make use of quantitative and/or qualitative research methods. Students will be guided by their supervisor and conduct individual research work on an agreed topic. The supervisor will facilitate the process through regularly-scheduled meetings.

This course is only open to seniors, ideally final semester students should take this course.

### **Prerequisites:**

MGT 5200

### **Aims and Objectives:**

The Course provides students with the opportunity to work independently to develop their ability to make critical judgements. This will provide an opportunity to apply and develop tools and techniques acquired during the course of their major in pursuit of answering a research question.
